

## ➤ PROFILE

I am a passionate Full-Stack Developer with expertise in building modern, scalable, and user-friendly web, software, and mobile applications. My skill set spans front-end technologies like HTML, CSS, JavaScript, jQuery, and React, along with back-end frameworks such as Node.js, Express.js, Django, Laravel, Spring Boot, and PHP. I am proficient in programming languages including C, C++, C#, Python, Java, R, MATLAB, and Kotlin for Android app development.

With experience in databases like SQL and MongoDB, I ensure seamless data management and storage. I am also skilled in data visualization tools like Power BI and Tableau, enabling effective analysis and presentation of complex data for informed decision-making.

Specializing in developing clean, functional, and dynamic applications, I excel at solving real-world problems with a strong foundation in full-stack technologies, mobile development, and data visualization. Driven by a passion for innovation and high-quality solutions, I'm ready to bring your ideas to life!
